

Habitat's impact

is widespread in the community.

The impact of Habitat's affordable home ownership model includes benefits to families, their children, and the community.

An independent study of Habitat homeowners found:

 70% of homebuyers reported improved health, including reduced colds and flus, allergies, asthma symptoms and stress;

 The quality of employment increased after Habitat, with families working fewer jobs and having greater employment stability;

 70% of partner families donate time and money to charities.

every REALTOR® can make a difference.

Here's how to get involved:

 **Volunteer your time at a Habitat build or at the ReStore** – Invest your time and talent by getting hands-on.

 **Become a Friend of the Foundation** by pledging a monthly or annual donation to CREB® Charitable Foundation, you will be part of the legacy of giving back to our communities.

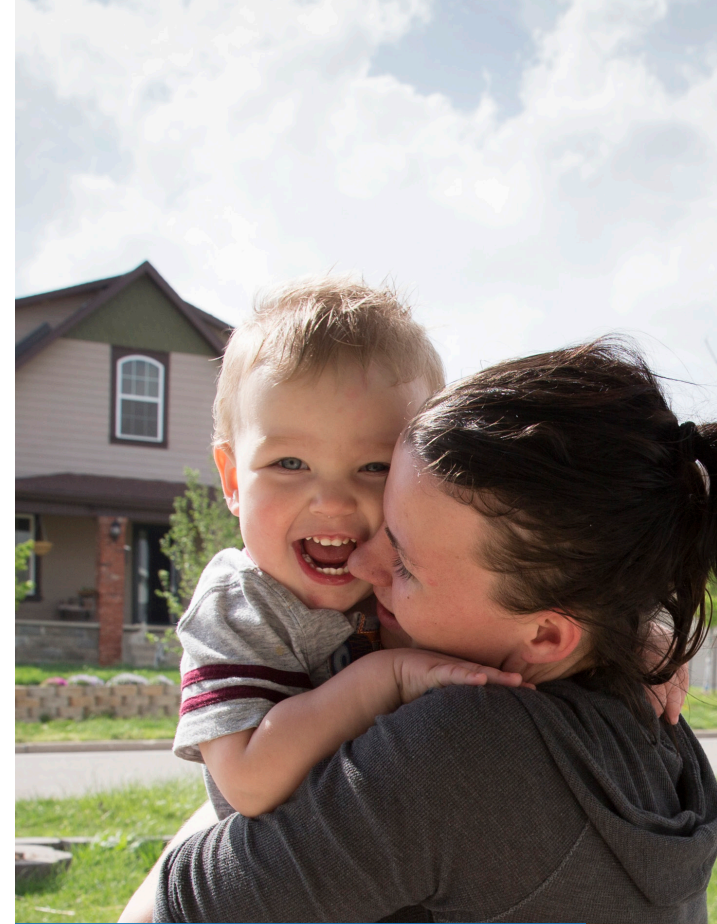

**friend of the
foundation**

can build a stronger
community.**

**Habitat
for Humanity®**
Southern Alberta

creb®
charitable foundation

every partner

contributes to a stronger community.

The CREB® Charitable Foundation and Habitat for Humanity Southern Alberta have entered into a three-year partnership to help working families attain strength, stability, and independence through affordable home ownership.

The Foundation will invest a significant contribution of \$1,000,000 in a legacy project to be announced in the near future.

There will be opportunities for CREB® REALTORS® to engage in fundraising events and volunteer at Habitat build projects.

These are meaningful ways to be part of the solution to the affordable housing issue in our community.

EVERY VISION

can build a better future for generations to come.

This transformational gift from the CREB® Charitable Foundation will help working families build a better life right now and for generations to come.

EVERY HOME

creates a foundation for a stable future.

The home is crucial to a child's mental growth. Providing children with a safe and private place to do their homework has a positive impact on learning.

Healthy cognitive development enhances a child's ability to perform well in school, solve problems make informed decisions, and acquire technological skills.

Home ownership has been linked to higher math and reading scores among elementary school children and higher rates of high school and university graduation.

"Our goal is to better serve the membership by aligning our giving strategy with our industry focus—housing and real estate."

**-Alyssa Campos
President CREB® Charitable Foundation**

EVERY COMMUNITY

can welcome Habitat families.

Affordable housing is a City of Calgary priority:

- The City's Municipal Plan recognizes affordable housing as an integral part of complete communities;
- Neighbourhoods that accommodate a broad range of housing types can be less vulnerable to the consequences of community life cycling;
- A stable population base helps ensure that community facilities and services are maintained and fully utilized.

"We are honoured to partner with CREB® Charitable Foundation. As realtors, they understand the value of home ownership to families, their children and the community."

-GERRAD OISHI, PRESIDENT & CEO

Fatima and Abderrahmane and their four kids, Houda, Yasser, Asiya and Jannah, were one of four families to become homeowners in Bowness in October 2017.
